

## THE MORNING APPEAL.

The Official Paper of Ormsby County  
FRIDAY, APRIL 12

### ALL SORTS.

Today is good Friday.  
The weather is simply perfect.  
No more theatricals here for some time.  
The University at Reno will begin shortly.  
Stall fed pork at Chubbuck's new market.  
The buds are beginning to show on the trees.  
Homer Wilson is expected back next week.  
Bergman has just received a lot of new goods.  
More strikes are reported in the Pine Nut mines.  
The new annex to the Orphans' Home will cost \$3000.  
Doves are beginning to make their appearance in the fields.  
Abel Cohn is expected home soon with a lot of Spring styles.  
The Smith-Lieb troupe left Carson with a good impression of the town.  
The Wilde case has been continued a week in London. Wilde was refused bail.  
The Silvermen will put no municipal ticket in the field at the coming election.  
It is claimed that the new Fish law has no penalty attached and is therefore inoperative.  
Parties are here from San Francisco demonstrating what a new scraper can do on the roads.  
It is now claimed that the amalgam found in Piper's dinner pail, was merely some domestic biscuits.  
The Enterprise and Chronicle of Virginia are having a wordy war over the school girls of the Comstock.  
The Salvation Army has opened its campaign in Carson and will be assisted by the Reno auxiliary division.  
The boys all say that there is no resort at the south end of town where a cocktail is so well mixed as at Johnny Meyers.  
Hon. H. E. Bartine left for Salt Lake last evening. A large number of friends wished him good luck in his new field.  
Nudge Mara's cow gave birth to twin heifer calves yesterday, and Mara thinks of going regularly into the milk business.  
In 1896 when a Silver President is elected we want the world to bear in mind that the silver tidal wave started right here in Nevada.  
At the public school in this city children are allowed to debate questions which the greatest statesmen in the country are not able to solve.  
The churches are all making preparations for extra sermons on Easter Sunday with extraordinary attractions in the way of fine music and singing.  
The young lady who carries the War Cry, the Salvation Army paper, left a copy of the paper at this office yesterday. The paper is well printed and newsy.  
A Fresno newspaper says that it is the duty of an editor to throw mud, and the duty of the man hit to see that it don't stick. This is a new school of journalism.

"A book for the gay sent securely sealed for 50 cents" was the advertisement answered by a well known saloon keeper of this city who received a pocket bible for the coin.

### Baits! Baskets!! Rods!!!

Hooks and other tackle. The largest and most complete lot ever received by Cagwin and Noteware, has just been opened. Call and satisfy yourself that the prices are right.

### Pure Ice.

Dr. Bentou has cut and stored a large supply of Pure Crystal Ice. He will deliver it to any part of the city at the usual rates.

Now is the season of the year when you lay in your supply of wall paper. John G. Fox has some new designs and such a variety on hand that you cannot help be satisfied.

When Baby was sick,  
We gave her Castoria.  
When she was a Child,  
She cried for Castoria.  
When she became Miss,  
She clung to Castoria.  
When she had Children,  
She gave them Castoria.

## THE PRESS AND THE MINT.

### A Fresh Batch of Wild State-ments Daily.

A number of newspapers on the Coast have gone into the business of assisting the detectives in their work of ferreting out the Mint thieves. So far their efforts have only resulted in complicating matters and hampering the work of the officials. The Examiner of Monday contains an article which has many errors. It says that the theft of bullion by Henry Piper occurred in Adams' administration and that Superintendent Adams found the amalgam in Piper's basket while going the rounds. The facts are that two employees of the Mint in looking in a cupboard for some waste to clean machinery with lifted a dinner pail and found it half full of amalgam. Piper who was watching them rushed up, broke forth in a torrent of profanity, and grabbing the pail rushed out of the room and threw its contents down the elevator shaft into the cellar, where it was rescued.

This was in 1891. The matter was reported to the Superintendent Hofer and the man discharged. The stuff he attempted to steal was depositors bullion and the Government suffered no loss on that particular occasion. Whether he was ever detected in other stealings or not is not stated.

The statement that Heney has skipped out and left his wife and children, may be true as far as the skipping goes, but he had no children to leave. If he has disappeared it is not probable that he is beyond the knowledge of the detectives; who have had him located for some time.

The Reno Journal claims to be in possession of facts of a very important nature, some of which it publishes. If these facts are as stated, it would serve the ends of justice better had the facts been placed in possession of the detectives, that they might quietly work on them.

A good deal of information has been brought to the Appeal office for publication. Some of the "pointers" were of a character that we did not care to assume the responsibility of publication, but turned the information over to the detectives to work on. Some of the information proved of service to the Government and some turned out to be founded on the wildest rumors only.

It is insinuated that the Government agents do not want to reach the real offenders. Such an idea is ridiculous at this stage of the game, and such reflections do an injustice to the men in charge of the investigation. They are old members of the secret service branch of the Government and their positions depend on their ability to do the work well, and we believe that when the time comes to demonstrate their work no one will claim that it has not been well done. The men who did the stealing were all smart men and they were banded together systematically and used great skill in covering their tracks.

In the present investigation it is the cunning and skill of the thieves matched against the cunning and skill of the Government detectives. The Piper-Heney branch of the affair was only incidental and it is regarding that they made discoveries regarding men higher up, and took advantage of the knowledge to get their fingers into the pie.

Meanwhile the press and the public can do nothing but wait until the proper officers make their reports. It will be a surprise in many ways, some men under suspicion will be cleared and some men not yet suspected by the public will be obliged to meet grave charges.

### The Mazamas.

This is the name of a club of mountain climbers who propose on the 10th day of July to send heliographic messages from British Columbia to Mexico and return. The messages are sent by mirror flashes from one mountain peak to another on the Morse system of telegraphic dots and dashes. Over thirty mountain peaks will be used as stations from which to flash the messages and should the day prove cloudy the parties on the mountains will stay until the weather clears.

Mt. Tallac, near Lake Tahoe, has been selected as one of the peaks in the chain. This is the largest distance that heliographic telegraphy has ever been attempted, and the result will be watched with much interest.

Government officers and State military organizations along the route are requested to co-operate in ending the work. The camp on Mt. Tallac will be in communication with the signal corps on Mt. Shasta.

An unknown young woman jumped from the ferry boat crossing from San Francisco to Oakland Wednesday night and was drowned. Nothing was left behind by which she could be identified.

## Warner Heard From.

The following letter was received yesterday by the Secretary of State from General Warner:  
HON. EUGENE HOWELL,  
SECRETARY OF STATE,  
STATE OF NEVADA.

Dear Sir:

I beg to acknowledge receipt of Senate Concurrent Resolution of the Legislature of the State of Nevada, endorsing the action of the American Bimetallic League in inaugurating a movement to unite those in favor of restoring the bimetallic standard of money in the United States, for that purpose and to subordinate everything else to this as the supreme issue; and also the endorsement of Joseph C. Sibley of Pennsylvania as a suitable candidate to lead this movement in the election of 1896.

The State of Nevada has the honor of being first in the field in this movement, as a State, not only by the action of its Legislature as manifested in this Concurrent Resolution, but by the organization of a similar movement as long ago as the Presidential election. I beg to assure you, and through you the Legislature of your State, that its action is most highly appreciated, and that coming as it does at the inception of the movement, it is in the highest degree encouraging.

I have the honor to be,

Very respectfully,  
A. J. WARNER  
President.

### Where is He.

About a year ago a man named Browning came along here and took orders for churns. He collected in advance from some and has never been heard of since. He also had a patent wagon break that worked automatically. If any newspapers on this Coast knows of his whereabouts they will confer a favor on Carson people by publishing the fact.

### King's Daughters Tour.

Fifteen young ladies belonging to the King's Daughters leave on Monday for a tour through Smith Valley. They will give performances at Wellington, Gardnerville, Yerington and other points for the benefit of a Church to be built in that section. The people of the Valley manage the entertainment, pay all expenses and furnish the conveyances.

### Latest on Heney.

The latest yarn circulated about James Heney in this city, is that since he left the Mint he was tried in Arizona on a criminal charge and sentenced to five years imprisonment, after which he got a new trial and then got free because of witnesses who skipped the country to take part in a mining excitement.

### "Standard."

This is the name of the new brand of percale shirts that Joe Platt has received. He has them in every color and all sizes. Look at them as you pass the store and you are bound to ask the price.

Yesterday a man was arrested for being drunk and disorderly on the street. He fought the Sheriff and filled the air with vulgar language until the Sheriff was obliged to choke him into submission.

Attorney General Beatty has a fad for all sorts of odd pipes. He has a regular museum in the State Capitol building of old pipes, from the high scented duccen to the costly mer-schaum.

Considerable excitement has been in Salt Lake City over the discovery of rich placer mines in Harker's canyon, twelve miles west from the city. The dirt runs as high as \$9 per yard.

The Supreme Bench is now occupied by men whose names all begin with B. Belknap, Bigelow and Bonifield. They are just now the busy bees, but they are not always so.

A train was held up in Colorado yesterday near Cripple Creek, and \$16,000 secured.

Awarded  
Highest Honors—World's Fair  
DR.
